About me

I am a Christian and a Zimbabwean by birth. When I was growing up, I wanted to be an accountant or an airhostess but studied and worked in the hotel industry. I like challenges and to learn new things and I always grab opportunities to do so. I have a heart and I care for people.

Why am I doing massage therapy

After some years I ended up working with visually impaired men and women who inspired me with their amazing touch in aromatherapy massage. I have seen clients being transformed after having a massage. I want to help people who are in pain and who are suffering from stress.

What are my goals & dreams

My goal is to make someone feel good after being massaged. In the future I see myself being a mobile therapist visiting health centres and massaging elderly people as they need much love and can get it through touch.

What I am thankful for

I love doing this work because you get to meet different people and you also get to work on a flexible schedule, and there is a possibility for career growth.

If you would like to book a treatment with me, please contact the Light and Healing Centre.

I look forward to meeting you!
