About me

I was born on 28 January 1988 and I am 33 years old.

I matriculated at Athlone School for the Blind and I am currently employed at the Light and Healing Centre where I am also studying to be an aromatherapist. I may not be a person of many words, but I am a people's person.

Why am I doing massage therapy

Studying aromatherapy is a beautiful and an exciting experience, and if I am able to help bring some relief to people suffering with pain and tension then that is enough for me.

I also believe that being visually impaired does not have to stop you from achieving your goals.

If you would like to book a treatment with me, please contact the Light and Healing Centre.

I look forward to meeting you!

Miche
