About me

When I became blind in 2016 my whole world shut down. After numerous operations nothing changed, and I lost all trust in myself. At the time I was studying to be a social worker at UNISA but then my whole world stopped. After that, I thought nothing would bring back my self-esteem. I slowly started to pick up the pieces of my life. After being introduced to the Light and Healing Centre, I started to build my self-esteem and trust. I also started meeting new people and socializing which was what I needed in my life. I am a people's person, and very respectful towards others.

Why am I doing massage

I'm doing this course because I'd like to fulfil my goals. I love this course; it has given me so much strength. I look forward to the class each week. The main thing for me is to be able to work with people because I really love massage, it has made me feel like a new person. It is not about the money.

What are my goals & dreams

I'd love to continue with this course and become a professional. I'd like to be successful whether I work for a company or even open my own small business.

What I am thankful for

I can no longer do work like other people, but I can massage, and it makes me so happy. I enjoy being in this environment so much.

To book a treatment with me, please contact the Light and Healing Centre.

I look forward to meeting you!
